ADDITIONAL REQUESTS

For any additional requests or questions please contact the Organizers directly Magdalena Klim
exhibition@eurogeo7.org

EXHIBITION INSTALLATION AND DISASSEMBLY

Exhibition must be installed during the following days:

- September 3, 2022 (Saturday) in the afternoon (12:00-23:59) (Hall M - Marmurowa)
- September 4, 2022 (Sunday) all day (Hall M - Marmurowa, Hall T - Trojka, Hall R - Ratuszowa)
- All individual booth installation dates and times must be confirmed with the Organizers directly by emailing exhibition@eurogeo7.org
- Organizer will run an Exhibitor Assistance Desk during the set-up hours and the opening hours of the exhibition.
- Booths must be disassembled and removed from the venue after the closure of the exhibition on Wednesday, September 6 from 17:00 hrs onwards.
- On Wednesday, the halls will remain open between 17.00 hrs and 24.00 hrs to allow for removal of booths
- Booths that are not removed by 24.00 hrs on Wednesday will be removed by the organizers at the exhibitor's expense.

SUBMISSION OF FLOOR PLANS

Deadline for submission of Floor Plans: January 15, 2021.

- All exhibitors are required to submit a floor plan of their booth to the Organizers for approval.

VENUE REGULATIONS

Unloading/Loading/Storage/Transport

- All delivery trucks/vans/cars must register their license plates with the venue
- Upon registration, a permit will be provided, authorizing entrance to the loading/unloading area
- Note trucks are required to obtain an additional permit in order to enter the City of Warsaw

On-site unloading procedure

Schedules for loading and unloading will be determined by the Organizers and the Venue Logistics Department.

All entry of vehicles into the Venue Loading Bay have to be approved by the Venue Logistics Department.

Once the vehicle has been granted approval to enter the Loading Bay, the following procedure should be followed:

- All trucks and vans must enter one by one.
- The speed limit of 10 km/hour must be strictly observed inside the Loading Bay.
- Time limits for loading and unloading will be enforced. If the established time limits are not respected, the offending vehicles might be prevented from entering the Loading Bay.
- Lifting platforms may not be used without the supervision of the Venue Logistics Department.
- It is forbidden to load and unload material using the passenger lifts instead of the service lifts (the Loading Bay is duly signaled to avoid mistakes).
- Personal cars will not be allowed into the Loading Bay unless authorized by the venue.
- The Venue Logistic Department will determine the maximum number of vehicles inside the building at any given time.
- Engines have to be turned off during loading and unloading.
- Vehicles not meeting minimum safety requirement or showing any leaks will not be allowed to enter the Venue.
- The Venue Logistics Department will have the final say on the loading/unloading procedure. In case of any doubt or for clarification please consult the Venue Logistics Department.

Cargo Lift

- All materials and equipment need to be moved using the cargo elevator.
- The dimensions of the elevator is: 255 x 165 x 245cm (length, width, height), individual parcels cannot exceed these dimensions.
- The maximum floor load at the Venue is 400 kg/m².

Storage

The venue does not have any storage facilities. Exhibitors need to remove any boxes and packaging materials before the exhibition start.

Exhibitors are requested to contact ExpoSped in order to arrange storage.

Other

- Nothing should be stored outside of the designated areas. Any obstructions to the corridors, evacuation routes around the Venue will be removed at owner's expense.
- Upon closing of the exhibition, each Exhibitor must dismantle and collect all of their materials and equipment.
- Custom exhibition booth require drawings and fire proof certification
- Access to fire safety equipment should be maintained clear at all times. Booths can employ curtains in order to cover up the equipment and allow for easy access. Fire safety equipment will be marked by an H on the venue map.

GENERAL REGULATIONS

- A company representative should be present at their booths during assembly and disassembly and to receive their deliveries
- Each company is responsible for installing and removing its own booth, without causing any damage to the halls or the entrance of the halls.
- Exhibitors are expected to leave their locations in the same conditions as initially received.
- All exhibits must be carpeted (the corridors of the exhibition area will be carpeted by the organizers).
- The maximum height of any exhibits must not surpass 3 meters.
- Maximum floor load: 400 kg/m²
- The "pull and release" (RIA) levers installed to clear the halls of smoke are to remain accessible at all times.
- It is prohibited to nail, screw or stick items on the structure (walls, ceiling, pillars, doors, elevators, etc.) Any damages to the structures may be invoiced to the exhibitor.
- It is absolutely prohibited to carry out any work that will impact: smoke, water or compressed air ducts, electric or telephone circuits, water or waste pipes, elevators, lifts and pipelines, drilling of holes for posting or sealing, removal of doors, etc.
- All materials used for the construction of the exhibits and all equipment displayed during the exhibition must be fireproof (certificates required).
- General cleaning of the conference common areas will be performed each morning. For extra cleaning service please contact the Organizers.
- No information or advertisement should be displayed outside of the booth without the **explicit approval of the Organizers**.
- Do not leave booths unattended while visitors are still in the hall
- IMPORTANT: Exhibitors should be cautioned about obstructing their neighbors with decorations or bulky furnishing. Complaints will be dealt by the Organizing Committee.
- **Repair of damages subsequent to the non-observance of the above clauses will be entirely at the exhibitor's expense.**

- We advise not to leave any valuable equipment at the exhibits when not manned.
- The Organizing Committee reserves the right to modify the exhibition floor plan at any time.
- All use of hazardous or prohibited materials (radioactive materials, gases, etc.) must be approved of by the Organizers.
